

Ahadith References to the Speeches

These days, short clips of religious addresses are frequently forwarded and uploaded, sometimes taken out of context, causing rifts and divisions among followers of Ahl Al-Bayt^{asws}. Some irresponsible speakers having Shia/non-Shia beliefs are also causing confusions by presenting 'selective' and incomplete Ahadith. In response to our members asking for clarifications and Ahadith references, 'Ahadith References to the Speeches' section has been created, citing Ahadith text in Arabic-English. We, hope this attempt is appreciated, as a service to seek the pleasure of the 12th Imam^{ajfj}, neither to cause any distress nor contention - we also remain open to amendments and corrections found in our approach and translations.

May Allah^{azwj} enable us to believe and act with all that which Pleases Him^{azwj} and Forgive all our mistakes, Ameen Suma Ameen!
