A richly detailed game world centered on the Christian Byzantine Empire, Crusader Kings II is a gameplay system that will immerse you deeply into the management of a medieval Kingdom. Rather than a single campaign-style game, you will have the opportunity to play a dynasty through several generations. You will be able to play multiple characters over the course of the game. Manage the domestic political situation in your realm by choosing which vassals you rely on and by encouraging rivalries among them, thus establishing rival factions that will be represented as warring parties in the interface. The factions system creates a complex web of interrelationships that can lead to the rise of powerful barons and the eventual decline and fall of a dynasty. Be warned, power and warfare is a core part of the gameplay. New Features: As usual we bring new features including addictions, laws and monsters in this update. Addiction: Addiction: 1- A new addictive system for the Hints, Glory, Religion and Poetry paths. 2- A Criminal can now be tracked down by an Investigator if they commit an act of high treason. 3- A character can now get addicted to a new drug: Aphrodisiacs, that will help them seduce their partners in bed. However, consuming too much of the drug will make them fall in love with the owner of the Drug, giving them an extreme sexual thrill. New Laws: New laws and penalties for the crime system. These laws are highly contextual, meaning that they will have different effects depending on the crime, the crime details and the specific characters involved. New Monsters: Legendary monsters and the new man-eating monsters from the mountains of the Caspian. More and better quality assets: This version was launched on Steam on Tuesday, October 31, 2012! Linux Support: Linux Support - Coming soon! *** ABOUT THE CRUSADER KINGS STUDIO *** About Fatshark: Fatshark is a studio located in Braine-le-Comte, France. It's your first adventure as an agent of S.T.A.R.P. Your mission: restore order in the S.T.A.R.P. Agency. The truth of the matter is, no one has ever been inside S.T.A.R.P. The agency was a project from the very top, and it has been shrouded in mystery since day one. But that's about to change... The truth will be revealed, but first, a lot of things must happen. In the first episode you are assigned to the S.T.A.R.P. Satellite. The Agency is supposed to hide, but the grid is gone. It's not that hard to guess that S.T.A.R.P. was the one responsible for the grid going dark. Soon you'll meet the head of the Agency, Agent Soot. Right away you'll see how everything is very, very strange. Some of it has a reason, some of it has no reason at all. What's the cause of all this? And who is doing this? Are these accidents? Or sabotage? You'll have to investigate the Agency, the S.T.A.R.P. satellite, and the city where you are. Make sure you don't let them discover you. There are many things to do, and many questions to answer. No idea will go unanswered. The full game will keep you busy for a lot of time, there's so much to do. You're a Ranger. A top-secret agency needs you, and all you have to do is walk around and look at things... === FEATURES === * New type of weapons * Upgradeable weapons * A lot of useful objects * Excellent and unique character models * And much more... Neon Ride is the debut studio album by American rock band the Black Eyed Peas. The album was released on September 11, 1999 by Interscope Records. Inspired by a guitar player, Marcos, Thomas "T.I." Campbell who passed away in 1999 who was best known for having played guitar on the instrumental "Don't Phunk with My Heart" was brought in as a record producer. The album was a success worldwide, it spawned four US top 40 singles, including the number one single "Pump It" and contained the hit singles "Shut Up" and "Don't Stop the Party". After a successful decade, it has sold more than 8 million copies worldwide and received a diamond certification from the RIAA. Background It was said that the Black Eyed Peas was born in 1998 as early as the album The Beautiful and Damned in 1999. It created a huge success for new sensation pop band in the United States: specifically after the year 2000, but not by the whole American college crowd. Many college students were interested in their music, the band was referenced on every single popular U.S. show, such as MTV, VH-1, E!, Q, Vibe, Good Day L.A. and even Good Morning America. However, the standard of hip hop did not have much impact in this genre, since most people bought records anyway, despite the lack of inspiration. As a result of this, many people became adamant of the fact that there had to be a new kind of music that was appealing to this niche group. Through the Black Eyed Peas, the public experienced this music for the first time. This included many football stadiums, with a scalpers' waiting to rush at them, the first time a professional team had been rumored to sell out a show. The general consensus at the time was that the Black Eyed Peas could be the most successful band in the history of rock music, which led to a new era in popularity for hip hop music among America's youth. The Black Eyed Peas quickly proved this point with their sophomore album Monkey Business (2001). It was described as rap that was "almost danceable", while containing the intricacies of "modern"

dance. The audio CD and video DVD were done with visual effects by HappyMeat Inc. The effects consisted of music videos, hip-hop, and it featured the debut of concepts, animations, handwriting and the first on-screen captions.
