Game Name: War3station Type: 2D Platform: Mobile Released: 2016 Saving Mary A web-based game developed by the retired army soldier and veteran, Lee Seol. He was discharged from the army in 2006 due to a car accident and suffered from war-related psychosis. Story It is a time when I barely overcame the harsh struggle of growing up, and by the time I was reintegrated into society, it was already too late. I don't think I'll be able to start a new life... So, I resolved to lead my life as an otaku. I couldn't take on the normal life of a part-time salaryman, so I just resigned. I've been living alone in a warehouse, going out to take photographs at the dusk, and trying to avoid meeting anyone else. I think I may have finally met someone who seems to be an exception. His name is Mary. The reason I followed Mary is that, her big boobs have attracted my attention since I saw them on the television. Mary is a traveling vendor selling hot potatoes at a marketplace called "The sun and the moon market". When I happened to meet Mary on the road, Mary was carrying lots of potatoes. They were not potatoes produced from her own farm, rather large-size potatoes. I thought to myself that

"Tarnished has an interesting story, nice visual quality, and the game's online mode will be a great joy for long play sessions." - GAMESPY WATCH, "The new Fantasy Action RPG has already grabbed the attention of gamers with a number of new and unique features. From the start, Tarnished looks to be a game that gives players the feeling that they are in the middle of a great story, and while not every aspect of the game makes it into the action RPG genre, it is hard not to feel that a new and exciting story has been created for us." - BUDGET GAMER, "If you're looking for a game full of fun and memorable moments, you may just be in luck. Tarnished Games has taken the core elements of online multiplayer and combined them with an anime-style story, to create an almost unprecedented experience." - PSN WORLD, "Tarnished is one of the most promising games, thanks to an interesting story and a mix of interesting and rather serious elements. It also has a lot of style, thanks to the emphasis on anime rather than the usual manga style, but I'm fairly confident that Tarnished will even surpass my expectations." - GAME STORE, "The graphics are amazing, the soundtrack is fully immersed into the atmosphere of the game and the offline play is fantastic." - SHOGUN GAMING, "Tarnished has an intriguing storyline. The simple design doesn't make for an easy game, as you have a lot of things to do to progress the story. But the additional elements of online play and asynchronous communication make it much more interesting than the recent RPGs released by the big publishers." - GAMESPY WATCH, "The new fantasy action RPG is shaping up to be a refreshing game that has a lot of potential and is sure bff6bb2d33

I'm the only one in my local area who isn't registered to vote. I'm a graduate of the University of Warwick, one of Britain's leading universities, and my politics are generally on the left-wing side. So I'm frustrated when I look at the polls and see that the Tories are likely to win the election. In fact, I'm pretty sick of the way our political system, as it stands, seems to be stacked against young people. I'm frustrated because I'm told there's no point in registering to vote, as I won't be able to get to my polling station. I'm frustrated because, if I get around to registering, then the computer system will show that my details are incorrect, or that it's full. I'm frustrated because I don't want to waste time being told, in a condescending and patronising way, that my opinions do not matter. I'm frustrated because, if I was able to express my political and academic views, no matter who I voted for, I know I would be laughed at.
